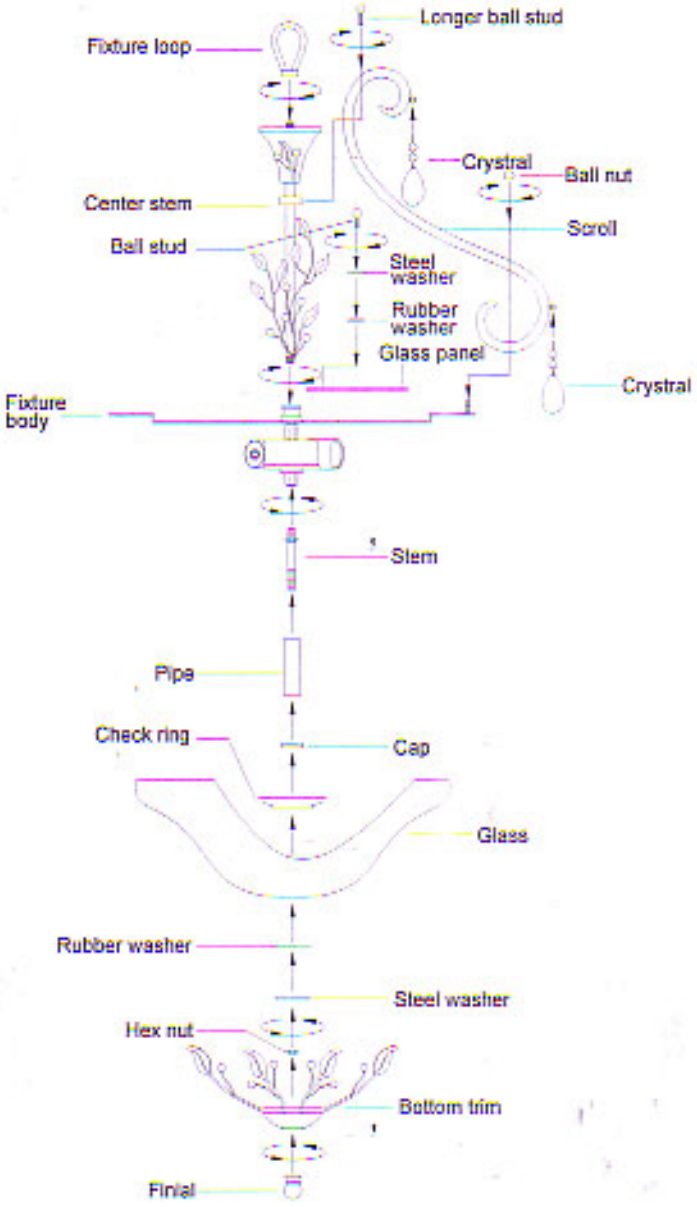
ASSEMBLY INSTRUCTIONS FOR 32502



1. Before beginning the assembly, carefully unpack and identify all parts referring to the illustration.
2. Turn power to the installation point **OFF**.
3. Unravel the supply power and ground wires and pass the holes of center stem and fixture loop.
4. Thread center stem into the coupling at center of fixture body, then fixture loop into the protruding nipple at top of center stem.
5. Install glass panel to the fixture body and secure with rubber washer and ball stud as shown in the diagram.
6. Line up the holes of scroll with the hole of center stem and small nipple at steel strap of fixture body, and secure with longer ball stud and ball nut as shown in the diagram.
7. Thread stem into the coupling at bottom of fixture body.
8. Install proper bulbs (not provided) to each socket referring to the markings and labels on fixture for maximum wattage.
9. Raise pipe, cap, check ring, glass, rubber washer and steel washer up and secure with hex nut.
10. Place bottom trim over the stem and secure with finial.
11. Attach crystal to the ring of scroll as shown in the diagram.
12. Restore power to the installation point **ON**. Retain this sheet for future reference.
